14 According to the original scheme sent by the Mysore Government for the growing of fruits in 100 acres of land, the expenditure to be borne by the Imperial Council of Agricultural Research and by the Mysore Government, was estimated at Rs. 88,000 and Rs. 95,000 respectively. The Imperial Council of Agricultural Research have modified the scheme providing for the growing of fruit plant in 45 acres of land, and have agreed to contribute Rs. 46,200 in five years towards recurring expenditure, and one of the conditions of this grant is that the receipts realised from the working of the scheme will be credited to the funds of the Council at the end of each year. The Imperial Council of Agricultural Research require a detailed technical programme of work for the scheme to be submitted for the approval of the Council. Before starting this costly scheme, the detailed programme of w[illegible] referred to above, and detailed estimate of the cost of [illegible] the scheme for the five years, showing the amount to be borne by the Imperial Council and the Mysore Government each year, will have to be obtained, and got sanctione[illegible] Without a proper estimate and programme of work, it is not desirable to sanction the acquisition of lands et[illegible] as suggested.

15 In para 117 of the Notes in G.G. file 65-35-15 it is stated that the total cost could be reduced

WD 3417--GPB—30,000—8-9-36

1

Letter no. 4208 S 29.6.1937 from the Superintending Engineer, G. G. submitting a detailed estimate of cost of the Fruit Scheme in Mysore

19 Sanctioned for perusal. The Scheme is estimated to cost Rs. 1,54,319/- out of which Rs. 1,05,119/- has to be borne by Govt. and Rs. 49,200/- by the D. C. & R. during a course of 5 years. It was originally expected that the amount to be borne by Govt. would come to Rs. 95,000/.; it was originally proposed under consideration to make use of the building at Doddaballapur Sampigi Station etc. and the amount to be borne by Govt was therefore estimated at about Rs. 35,000/-

20 The non-availability of suitable buildings, increased allotment for pumpsets with pipe connections and a more provision for the purchase of plants have necessitated the need for increased expenditure.

21 Orders are now required as the amount to be sanctioned for the entire period of years and also to a sum of Rs. 86/- required during the year 1937-38 — Rs. 75,000/- under non-recurring expenses Rs. 11,62/- under recurring expen

18 G.O. No. D. 69-74 & 2-7-1937 Sanctioning the acquisition of 50 acres of land for the Fruit Research station

26 Subo after issue of notification Orders are required on the proposal of forms as required in the Inspector's letter of 29-6-1937.

18-6-7-37. Ch Dey 6.7.37

A D. 7467

FINANCIAL SECRETARY. U.O.No.FI. 35 7. JUL. 1937

7 The scheme is too costly and involves an expenditure of Rs.1,08,119 to the State in addition Rs.46,200 agreed to be borne by the Imperial Council of Agricultural Research (both to be spent in five years). Whether the scheme will be continued af

NOTE—Contn. Sheet.

WD 0417--GPB—30,000-8-9-36

Serial No. 7135

five years and if so whether the present grant will also be continued by the Imperial Council of Agricultural Research, are not known. If the scheme is continued after five years, it will involve a recurring expenditure of Rs.15,662 per annum if the contribution of Rs.9,468 a year from the Imperial Council of Agricultural Research will cease, and Rs.6,194, if the above contribution will be continued. The starting of this costly scheme is unwelcome in the present financial position of the State.

28 Out of the total cost of the scheme, Rs.75,000 represents non-recurring expenditure including Rs.40,000 for Buildings (quarters etc). It should perhaps be possible to reduce the outlay on buildings (particularly residential buildings) to a great extent. Expenditure on account of Laboratory equipment and Stores equipment (for which details are not given) is also susceptible of considerable reduction.

29 As regards recurring expenditure, the need for the Driver* and for the provision for leave allowances@ and Travelling allowance to the staff (not included in the original scheme) is not clear.

30 The minimum expenditure found to be absolutely necessary may be sanctioned.

(Draft approved by Mr. S. Shamanna, on 7-8-37).

Serial No.

31 Subd for perusal.

32 Sanction is now solicited to the provision of funds during the next 5 years amounting to Rs. 108,119/- and Rs. 86,162/- during the current year for starting the Fruit Research Station. Rs. 86,162/- required during the current year are meant for

Rs. 75,000/- non recurring expenditure

Such as building - Rs. 60,000/-

Lands — 12,500

Pumps &c. 10,000

Formation of farms &c. 12,500

Rs. 11,162/- recurring expenditure such as

Estt., Tractor, manure, plants &c.

33 The Fl. Secy is of the opinion that it should be possible to reduce the outlay on building to a great extent, that the need for the Annual leave allowances etc. is not clear and suggests that the minimum expenditure found to be absolutely necessary more by Sanction. A Sum of Rs. 17,632/- has been already provided in the budget for the Fruit Research Scheme and it may perhaps also if a Sum of Rs. (86,162 − 17,632) = 68,530 Sanctions as an additional grant.

Subd for orders.

Ag. Ld—8-37

NOTE—Contn. Sheet.

12

File No. G.G. 65 of 193 57

General and Revenue Secretariat

Serial No.

34 I discussed this question with the Supdt G.G. and we went over the items of expenditure one by one. Rs 3500/- provided for stores equipment will not be required till the 2nd year i.e. until the plants begin to bear fruit. As regards buildings, it seems the Executive Engr prepared plans and estimates for Rs 35000/- and showed them to the Dewan. The Supdt says that the Dewan has instructed the Executive Engr to reduce the cost and that the estimates are pending revision with the Executive Engr. The cost of buildings will in all probability be limited to Rs 30000/- On the other hand the amount provided for pump and pipe connections (Rs 10000) is likely to be very much exceeded. The proposal is to pump the water from the Reservoir to a steel storage tank and from there distribute it to the station by ~~gra~~ gravity. The Supdt says that the cost on this account may be anywhere between Rs 15000/- and Rs 20000/- The cost of fencing also is likely to exceed Rs 3000/- Flag A

Serial No.

provided therefor A Driver is absolutely necessary to work the pump but during the current year Rs 210/- will suffice to pay him since he will not be engaged till the pumping plant is ready for operation. The provision made for leave allowance and Mohr's Staff may be omitted as suggested by the H Secy/ Govt also Rs 400 provided for maintenance of roads & buildings for Fodder and Concentrates and Contingencies the allotment may be reduced to Rs 900/ and Rs 300/- respectively It is not possible to effect any savings among the other items of expenditure The revised estimate of expenditure during the current year will therefore be as under:—

Non-recurring:

1	Land - acquisition —	Rs 12500/-
2)	Buildings (rough estimate)	Rs 30000/-
3)	Pump with pipe connections (")	Rs 20000/-
4)	Formation of land	Rs 3000/-
5)	Fencing	Rs 3000/-
6)	Laboratory Equipment	Rs 2000/-
7)	Bullocks	Rs 1000/-
	Total	Rs 71500

NOTE—Contn. Sheet.

Recurring expenditure

1) Driver (for 7 months)	Rs 210/-
2) plants	Rs 6000/-
3) Manure	Rs 500/-
4) Tools & Implements	Rs 1000/-
5) Electric power (irrigation)	Rs 600/-
6) Fodder & Concentrates	Rs 900/-
7) Contingencies	Rs 300/-
Total	Rs 9510

Grand total 81010

Deduct amount available in the budget 17632

Extra grant required during the current year 63,378

35 It is suggested that Rs 13400/- (in round figures) be sanctioned now and the amounts required for barrages and pumping plant, sanctioned later on receipt of detailed plans and estimates from the P.W. Dept.

3. The Dy. Comm has been authorised to take possession of the lands under S 17 of the L.A. Regn and hand them over to the Supdt. The latter said that he would wait upon the Dy comm and arrange to get possession of the lands

Serial No.

as soon as possible soon after possession is taken it would be necessary ✗ to appoint the Farm Manager and the two Foremen to start preliminary work on the station The need for the remaining staff will arise only after water becomes available for irrigation The cost of the staff as well as a portion of the cost of cultivation will be borne by the I.C.A.R. The Council has

D.B815.36
A.H.E. 96.3618. R

resolved to ask for Rs 2150/- for the purpose. It is difficult to say now whether the Council would continue to subsidise the Scheme at the end of ~~five~~ five years. If the results are promising it is probable that they would renew the grant. The Supdt. did say that if everything went well the annual receipts of the station at the end of five years might be as much as ~~that was~~ the grant sanctioned by the Council.

SECRETARY, 13. AUG. 1937 GOVT. OF MYSORE.

16 Grass Research Scheme 1167-

C.C. File No. 65 of 193 . | General and Revenue Secretariat

36 The under Sec's note clearly explains the points raised by the Finl Sec?

1st The Finl Sec wants information as to whether the Scheme will continue after 5 years. On this point there need be no doubt. Having started research work with outside aid, we shall have to carry on the work after 5 years, whether or not we receive a grant from the I.C.A.R. There seems every chance of the grant being continued, if the results during 5 years are encouraging. Further the Finl Sec? has failed to take note of the receipts from the farm after 5 years. The net Expre to Mysore Govt. will not be so high as anticipated by the Finl Sec?

38 Secondly the cost on buildings will be reduced in all likelihood from Rs 40000 to Rs 30000. This would result in the total non-recurring Expre not exceeding Rs 71500

39 Thirdly, the whole amount of Rs 71500 may not be required this year alone. We have already provided for Rs 17600 for the Scheme in the budget. An addl grant of at least Rs 40000 will be required this year to meet Agrl. charges, Cost of water supply arrangements and purchase of Equipment. A portion of the cost on account of buildings may be deferred till the beginning of next year

[App. F. III–2

Serial No. H 524

OFFICE OF THE SECOND MEMBER OF COUNCIL
5 NOV. 1937
NO 3380.

40 A. Information regarding the probable receipts according to the modified scheme had not been furnished in the detailed estimate sent by the Superintendent. According to the original scheme sent up by the Mysore Government to the Imperial Council of Agricultural Research, the income derived from the crops is intended to be utilised for the development of the fruit industry. The cost connected with the sale of the crops has also to be taken into account. Even assuming that the realisations after five years will be as much as the grant sanctioned by the Imperial Council, the scheme involving a recurring expenditure of about Rs 5,000 per annum is really costly and unwelcome in the present state of our finances.

Not at all costly if the Scheme proves useful. MK

B. There is no scope for sanctioning extra provision during the current year. The outlay should be regulated with reference to the budget grant, in the order of urgency. I still feel that our expenditure might have been on a more modest scale as the help that we will get from the Government of India is comparatively not much.

47 This is a Council matter as per clause (iii) (b) of App. B of Council Rules. Though the budget for the current year was barely balanced, additional grants aggregating about Rs 3½ lakhs have already been sanctioned. With the addition of Rs 40,000/- proposed in this file, the total additional grant will amount to about Rs 4 lakhs. The remission of Land Revenue announced in the Dewan's Address at the R.A. last month involves a loss of about Rs 1¼ lakhs. Draft Government Order regarding the scheme for research on Fruit Cultivation in the State.

OPINION OF THE COUNCIL.

57 The scheme should be sanctioned and the additional grant allowed.

Sd/- Mirza M. Ismail,
DEWAN OF MYSORE.

Financial Secretary for favour of concurrence.

27.11.37

Extract.

Chief Secretary to Government.

29/11

D. S. N. [illegible]

30/11

Submitted to His. Highness.

Z

54 Gracious sanction of His Highness was accorded in February 1937 to the Scheme for starting a Fruit Research Station in the State and orders

D

were accordingly issued in Government Order No. D.5760-4/G.G. 65-35-7 dated the 27th February 1937.

In connection with the above, the Superintendent, Government Gard

A

has submitted proposals involving an expenditure of Rs 1,54,319 spreading over a period of five years, out of which a sum of Rs 86,162 is asked for during the current year. I am of opinion that the expenditure proposed to be incurred on buildings may be limited to Rs 30,000 and the expenditure on non-recurring items may be fixed at Rs 71,500 and that the whole of it may not be required this year alone. In view of this, I think that in addition to the sum of Rs 17,632 provided for the scheme in the current year's budget, it would be enough if an additional grant of Rs 40,000 is sanctioned (during the current year) towards both recurring and non-recurring expenditure.

Page 66 lag' ha mds.

C

A draft Government Order embodying the detailed estimate of the cost of the scheme is put up. The detailed scheme as well as the additional

B

grant proposed was considered in Council and the following resolution was recorded at the meeting held on 23rd November 1937:-

" The Scheme should be sanctioned and the additional grant allowed. "

I solicit the gracious sanction of His Highness to the resolution of the Council.

Mirza M. Ismail

General and Revenue Secretariat | File No. 6·6 of 193 | [App. F. III—2

Serial No.

Letter no. 17-5-8 dated 9th Dec. 1937 from the Supdt. G.G. requesting a grant of Rs. 51,582/- for the Fruit Research Scheme.

61 Orders were issued on 8th Dec. 1937 sanctioning an additional grant of Rs 40,000/- for the Fruit Research Scheme. The Supdt. may perhaps be asked to limit his expenditure to this amount during the current year. It appears as the estimate under buildings has been further reduced from Rs. 30,000/- to Rs. 22,000/-, and as a separate grant of Rs. 3265-12-0 has been sanctioned for the acqn. of certain lands near Lalbagh.

K

KB. 24.12.37 As against the reduction of the Estimate for buildings from Rs 30,000/- to Rs 22,000/-, there is an increase in that for water supply from Rs 10,000/- to Rs 22,000/-. The results are in nearly [illegible] Rs 8,000/- under Capital Cost & non recurring charges.

The Supdt. G.G. states that out of Rs

Irrr research scheme 3169

No. 41 66 of 1935. | General and Revenue Secretariat

grant for recurring Expts for this year only a sum of Rs 125.8/- remains and this existing several items of Expts in this has to be added the sum of Rs 3265-12-8 which is an Extra grant for reclamation of lands & which the Supdt has demanded from the grant of Rs. 17,632/-, as his Calculation. This would come to Rs 4523-12-8. Out of this again a sum of Rs 1800/- being subscription raised to the Hort. Instt Soc. has to be deducted. The net amount available will therefore be Rs 2723-12-8 (plus the usual charges of the Revenue from the Hort. Soc). This will be hardly adequate to meet the cost of the proj. work outlined by the Supdt. G.G. this year as indicated in the G.O. of 8.2.37 a portion of building programme will have to be met from the grant for recurring Expts. thereby necessarily have to be met from the grant if any further funds this year is perhaps out of the question

Chief Secy)

RS 22/12

CHIEF SECRETARY. 22. DEC. 193 GOVT. OF MYSORE.

The attention of the Supdt. G.G. may be invited to the Govt. order sanctioning an addl. grant

Correspondence ending with letter No. CS I.A./No. 33/38 dated the 23rd June 1937 from the Deputy Commissioner, Bangalore District, recommending sanction to the acquisition of the marginally noted properties in the Sivarakhanipura Village of Bangalore Taluk required for the Fruit Research Station near Hesserghatta.

Survey Nos. 1-12 Kesaram 60 acres.

Order No.

Dated, Bangalore, 1st July 1937.

The acquisition of the properties recommended above is sanctioned, the Assistant Commissioner in charge of the Bangalore Sub Division being appointed to perform the functions of a Deputy Commissioner under the Land Acquisition Regulation and authorised to take order for the acquisition of the said properties.

2. The declaration statements in Marathi and Kannada will be forwarded to the Register, Mysore Gazette for publication.

3. The cost of acquisition may be proposed to be met from the provision made for fruit research scheme in the Budget of the Gardens Department for 1937-38.

N O T E.

This note has reference to the revised scheme drawn up by Dr. Badami (Flag S) He and I went through it with a view to reduce expenditure rever possible. As a result of our scrutiny two statements have been prepared - Statement II shows the non-recurring expenditure and Statement III the recurring expenditure in the first five years after the scheme is started. Statement I is an abstract of the Statements II and III and this abstract also shows how the expenditure is shared between the I.C.A.R. and the Government. Excluding the value of the buildings at Saldevanahalli which are estimated at Rs.38,000/- the expenditure to be borne by Government - both recurring and non-recurring, in the first 5 years will be as under

1st Year	-	45,962
2nd Year	-	9,189
3rd Year	-	9,401
4th Year	-	9,923
5th Year	-	10,944
Total		85,419

From the 6th year onwards the level of recurring expenditure on the Research Station will stand at Rs. /8674 per annum and the whole of this will have to be borne by Government unless the I.C.A.R. can be persuaded to renew the grant.

As regards receipts Dr. Badami does not expect to get anything from the miscellaneous fruits in the 1st five years. Apples are expected to give 6 crops before the close of the fifth year and yield a revenue of Rs.20,000/- This seems to be an optimistic estimate. In a manuscript note (Flag T) attached to his revised scheme Dr. Badami has previously estimated the receipts from this source at Rs.8,400 only.

As ~~xxxgrds~~ regards buildings, those that are shown in Statement II are situated in Saldevanahalli. If as is now proposed, the staff are provided with quarters at Thurubanahalli the estimated value of the buildings and the cost of repairing and altering them will have to be suitably revised.

The Military Authorities have offered to sell to this Government the Turubanahalli Pumping Station and the case is being worked up in the Public Works Secretariat. It is proposed to offer for the Station a sum of Rs. One lakh and this represents the scrap value of machinery, buildings etc. The buildings available at Thurubanahalli are -

(1) Pumping Station

(2) Valve Chamber

(3) Helpers and Cleaners quarters

(4) Assistant Driver's quarters

(5) Driver's quarters

(6) Superintendent's quarters

(7) Stores

(8) Travellers' Bungalow.

The original value of these buildings is stated to be Rs.53,013 and it is proposed to buy them for their break-up value viz., Rs.3867/-. It is stated that there is a demand for these buildings for the location of the Sulphuric Acid Factory and Sanitary Ware Factory.

The work on miscellaneous fruits is proposed to be restricted to the following -

(1) Collection of known varieties in India and outside.

(2) Multiplication of desirable varieties and their distribution to sub stations for large-scale-trial.

Besides, pine-apple, mangoes, oranges, grapes and guava will receive special attention.

The bulk of the Research work will fall upon the Scientifi Asstt. He must therefore be a first rate man. A B.Sc. I Class or M.Sc. with Botany as main subject and Zoology and Chemistry as subsidiary subjects should be chosen. It is better to recruit a Mathematics B.Sc. with a knowledge of statistics for the post of the clerk so that his services may be made use of by the Scientific Asstt. for drawing graphs etc.,

This note has reference to the site marked A in the sketch - Flag U.

SIR,

Subject:—

With reference to G.O.No.D.5760-64-G.G.-65-35-9 dated 26/27-2-1937, according sanction to a scheme for Fruit Culture in Mysore State, I have the honour to state that the Amildar, Bangalore Taluk, after inspecting the lands required in Jodi Aivarakandapur Village in consultation with the Superintendent, Government Gardens, Bangalore, reports that the lands are all fairly valuable and that they are worth Rs.200/- per acre. He further reports that there are some Casuarina trees in the south western corner of the proposed area, which are worth nearly Rs.43/ The total cost of acquisition of the entire area, along with the malk and statutory allowance will therefore come to Rs.11550/. In case Government approve of these lands being acquired for the Fruit Culture Station, necessary provision may kindly be made allot the above said sum towards the cost of acquisition of the lands in question.

The draft preliminary notifications and final declaration statements under Section 17.L.A.R. for the acquisition of acres of land in Jodi Aivarakhandapur Village are enclosed herewith If approved the same may be got published in the Gazette 20 spare copies of each being forwarded to the Sub Division Officer, Bangalore for publication in the locality. Orders of Government may also be kindly obtained for the acquisition of the lands the Sub Division Officer, Bangalore, being invested with the powers of

Deputy Commissioner under the Land Acquisition ~~Rules~~ and authorised to take order for the acquisition of the land. The file of connected records accompany for favour of reference and return.

I have the honour to be

CHIEF SECRETARY, 14.4.93 X X 193 * GOVT. OF MYSORE *

To

The Chief Secretary to Government of
His Highness the Maharaja of Mysore,
Bangalore

Sir,

With reference to G.O.No.D 5760-66/GG 65-35-9 dated 27-2-1937 anctioning a scheme for opening a Fruit Research Station in Mysore and calling for details pertaining to it, I have the honor to inform you that an area of 50 acres has been selected in Jodi Aivarkhandapur village, Hessarghatta Hobli, Bangalore taluk, in consultation with the Deputy Commissioner, who has been requested to make early arrangements for the acquisition of the land. Necessary information has been furnished to the Executive Engineer, Bangalore Division, regarding the requirements in the matter of buildings and water supply for the Fruit Research Scheme.

In regard to the full details of the cost of initial equipment under non-recurring expenditure over and above the sum sanctioned by the Imperial Council of Agricultural Research, I submit herewith four separate statements giving details of requirements under the two heads for the current year and the next. The total amount that would be required for 1936-37 according to the statements A and B is Rs 5370/- only as the work is to be started in May next, when there are only two months left in the financial year.

The total amount that would be required for the next year 1937-38 exclusive of the provision for land and the cost of buildings and water supply is Rs 12,362/- (Vide statements C and D). On receipt of the information from the Deputy Commissioner, regarding the cost of acquisition and from the Chief Engineer regarding the cost of Building and water supply the extra amount required for these items will have

The D.C. has requested that the cost should be 11550/-

to be added on to the amounts required as per statements C and D. As it is expected that all the buildings and water supply etc will be completed during next year and that the amount of compensation for the land acquired will also have to be paid next year, the provision to be made in the budget of next year will have to include these two items also. It is taken for granted that the staff and labour as sanctioned by the Imperial Council of Agricultural Research will be provided next year.

As the work has to be started very soon, I request that instruct may kindly be issued to the Deputy Commissioner in the matter of hand over the 50 acres of land selected for the Fruit Research Scheme to th Department. Sanction of Government may also be accorded for deputing a hand from the Department for starting the work at Hessarghatta, pending permanent arrangements. I recommend that Mr N.S.Iyengar who is in charg of the Fruit Nursery at Lalbagh may be deputed with two Maistries for the purpose and that he may be permitted to occupy a portion of the - Travellers' Bungalow at Hessarghatta till the Quarters are ready.

Orally with Hon'ble Minister

The technical scheme as prepared by Dr V.K.Badami and myself, is - I understand, with the Director of Agriculture for forwarding it to the Government.

I have the honor to be

Sir

Your most obedient servant,

Narayan R.

Bangalore.

Sir,

In continuation of this office letter No.3333 dated 3-4-1937 re: Fruit Research Scheme in Mysore and with reference to para 7 of G No. D 5760-64/GG 65-35-9 dated 27-2-37 according sanction to the openi of a Fruit Research Station in Mysore and calling for details pertaining to it, I have the honour to enclose herein a detailed estimate of cost of the Fruit Scheme in Mysore for five years showing the amount to be borne by the Mysore Government viz Rs 1,08,119/- and by the Imperial Council of Agricultural Research viz Rs 46,200. aggregating Rs 154,319/-

As the entire non-recurring expenditure has to be borne by Mysore Government the estimate has been kept as low as possible by taking into consideration the availability of Government lands under Hessarghatta channel and the buildings which belong to Soldevanahalli Pumping Station. In this office letter No.124 dated 28-4-1934 addressed to the General Secretary to Government, my predecessor has stated that though the total area of the Government lands available under Hessarghatta channel is nearly 70 acres it cannot be made use of for the Fruit Research Station as these lands which are in small bits are scattered wide apart and are below the channel. Hence a piece of private land 50 acres in extent having a gentle slope with a deep loamy soil and sub-soil and capable of further extension was selected in close proximity to Hessarghatta Reservoir as no suitable lands were available near the Pumping Station. The building at Soldevanahalli Pumping Station are found unsuitable for the use of the Fruit Research Station as they are 3½ miles away from the lands. Besides suitable houses are not available on rent in the villages near by. Hence the construction of new buildings is absolutely necessary preferably on the Fruit Research Station for the efficient conduct of the work.

The Chief Engineer in Mysore who was requested to prepare plans and estimates in regard to the buildings and installation of electric pump and distributory pipe system has submitted details. The other items of expenditure are also absolutely necessary and have been properly --- estimated. In this connection I have to state that the provision of - Rs. 100/- made towards the maintenance charges per acre per annum by the Imperial Council of Agricultural Research is found to be insufficier and a sum of Rs. 200/- would be the minimum provision required for - maintenance.

I request you therefore to kindly obtain the sanction of --- Government to approve the Fruit Research Scheme in Mysore at a total cost of Rs. 1,54,379.., the amount to be met by the Government of Myso being Rs. 1,08,179., and that by the Imperial Council of Agricultural Research being Rs. 46,200..

I have the honour to be

1st July 1937.

Dear Sir,

With reference to your D.O.letter No.L.A.R. 33-36 dated 23rd June 1937 regarding acquisition of certain lands in Jodi Aivarakhandapura village for the Fruit Research Station, I am desired to state that final declaration statements in the matter have this day been forwarded to the Compiler, Mysore Gazette, for publication. I am now to request you to be so good as to take necessary steps for the lands being acquired very early. The cost of acquisition may be met out of the sum of Rs.17,632 provided in the current year's budget of the Gardens Department, for Fruit Research Scheme.

Yours sincerely,

Draft

Govt.Order No.D.5760-4/G.G.65-35-9 dated 27th February 1937 passing orders regarding the scheme for research on Fruit cultivation in the Mysore State, and requesting the Superintendent, Government Gardens, to submit details of the cost of initial equipment and the amount required for recurring expenditure in this connectic

Letter No.4200 dated 29th June 1937 from the Superintendent, Government Gardens submitting a detailed estimate of cost of the Fruit Scheme in Mysore.

O R D E R NO. D 4200-1/G.G 141

Dated, Bangalore, the

In connection with the starting of the Fruit Research Station at Hesserghatta, the Superintendent, Government Gardens, has submitted proposals involving an expenditure of Rs.1,54,319/- during a period of five years as noted in the margin. In the current year, the whole of the non-recurring expenditure is stated to be required as also a sum of Rs.11,162/- towards recurring expenditure. Thus a sum of Rs.86,162/- is asked for during the current year as noted below:-

* Government of Mysore

Non-recurring	Rs.75,000/-
Recurring	33,119/-
	1,08,119/-
I.C.A.R.	
Recurring	46,200/-
	1,54,319/-

Non-recurring.

Land -	Rs.12,500/-
Buildings	40,000/-
Pumps with pipe connections.	10,000/-
Formation of land	3,000/-
Fencing	3,000/-
Stores equipment	3,500/-
Laboratory equipment	2,000/-
Bullocks	1,000/-
	75,000/-

Recurring.

Driver (for 12 months)	Rs.	360/-
Leave allowances.		452/-
T.A.to staff.		200/-

Manure		500/-
Tools & Implements		1,000/-
Electric power		600/-
Fodder & Concentrates		1,250/-
Contingencies		400/-
Maintenance of Roads and Buildings		400/-
		11,162/-
Grand Total		86,162/-

On a consideration of the proposals of the Superintendent, Government are of opinion that the expenditure on buildings may be limited to Rs.30,000/- and that the sum of Rs.3500/- proposed for Stores equipment may not be necessary for some-time to come i.e. till the plants begin to bear fruit. They are also of the opinion that the amount provided for pump and pipe connections-(Rs.10,000 is an underestimate and that the actual cost may go up to Rs.20,000/-. They consider therefore that the expenditure on non-recurring items may be fixed at Rs.71,500/- but that the whole of this amount may not be required this year alone.

A sum of Rs.17,632/- has been provided for the scheme in the current year's budget and Government are pleased to sanction an additional grant of Rs.40,000/- during the current year towards both recurring and non-recurring expenditure. If this amount is found not adequate, a portion of the cost on account of building may be deferred till the beginning of

OFFICE OF THE SUPERINTENDENT,
GOVT. GARDENS IN MYSORE,
2
LAL-BAGH, BANGALORE.

Dated ..... 9 - 12 - 1937

CHIEF SECRETARY'S DEVELOPMENT BRANCH
316 9
11 DEC. 1937

FROM

DR. L. S. DORASAMI, M.Sc. (LOND.), PH.D. (LOND.),
Offg. Superintendent, Government Gardens
in Mysore, Bangalore.

C.S. CHIEF SECRETARY To 10 DEC. 1937 GOVT. OF MYSORE.

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore

D. 7167-36.

Sir,

A Adverting to my letter No.4200 dated 20-6-37 submitting a detail estimate of cost of Fruit Research Scheme in Mysore for five years, I have the honour to re-submit the estimate of cost of Non-Recurring expenditure total amount being less by Rs 6000/- than before, revising now the cost of each items therein in the light of the figures received from the Revenue Department on account of the acquisition of land and from the Executive Engineer, Bangalore Division, on account of Buildings, Fencing, Water supply etc. According to the revised estimate, the cost of buildings is Rs 22000/- against Rs 40000/- as originally provided i.e it is less by Rs 18000/-. But the cost of water supply is Rs 22000/- against Rs 10000 as in the original estimate i.e. more by Rs 12000/-. The excess amount required on account of water supply is met by the savings under cost of buildings leaving thus the total amount required on account of Non-recurring expenditure less by about Rs 6000/-. (vide Statement A)

The recurring expenditure, however, remains the same as originally proposed.

A sum of Rs 17632/- was asked for and sanctioned in the budget of this Department for the current year for the Fruit Research Scheme for the items noted in Statement B. But as per G.O.No.D 2947-48/GG 17-37-5 dated 16-10-37, a sum of Rs 3265-12-8 has been spent for adjusting towards the cost of acquisition of land near Lalbagh and again as per Government Order No.D 69-74/GG 65-35-18 dated 2-7-37, a sum of Rs 11562-8-0 has been adjusted for the acquisition of land for the Fruit Research Station near --- Hessarghatta. Further as per my letter No.1703 dated 3-12-37 a sum of Rs 920

F

would be required for the purchase of five pairs of Bullocks and a sum of Rs 625/- for fodder and concentrates for these animals for about six months. Thus there would only be a balance of Rs 1257-11-4 or Rs 1258/- out of the total provision of Rs 17632/- for expenditure for the Fruit Research Station during the current year for the period ending June 1938.

If the work is to commence from January 1938 the following will be the programme.-

1. Fencing the plot, 2. Construction of buildings, 3. Arrangement of water supply, 4. Ploughing the whole area, 5. Laying out of plots, 6. Excavation of pits and manuring, 7. Planting of wind-brak and Life-fences and 8. Lastly, if convenient, planting some of the Miscellaneous fruits. A sum of Rs 54847/- would therefore be necessary for taking up the work relating to Fruit Research scheme on hand - as detailed in Statement C. In the light of the expenditure of -- Rs 3265-12-8 enumerated in para 2 being transferred to the Fruit Research Scheme a net sum of Rs 51582/- would be required [redacted] that early sanction of Government may kindly be obtai[redacted] matter.

I have the honor to be
Sir
Your most obedient servant,

L.S Srinivasan
T.S/12
Offg Superintendent
